~/ IMC Programming Contest

↳ > Registration open

Compete for cash prizes and interational acclaim ▯

The **IMC Programming Contest** is an individual programming contest open to university and secondary school students, supported by **IMC**.

In the three hour contest, participants will be required to solve ICPC style algorithmic problems using C, C++, Java and Python, using only standard libraries and no other support.

⚑ Qualifying round

February 15, 2025

Held at Various invigilated AUS / NZ sites. The top 20 performers invited to finals.

★ Finals round

May 11, 2025

Held at the IMC Sydney office. Flights and accommodation paid, thanks to IMC.
